CAREER OBJECTIVE

Quality-oriented profession with proven knowledge of education administration, grant administration and field instruction. Aiming to leverage my abilities to successfully fill the part-time instructor, Web Development role on your team.

Motivated Web Developer with an extensive knowledge of web development, design, and coding, as well as experience in a wide range of programming languages, framework, and tools. Proven success in developing and deploying applications, websites, and web services. Highly organized and detail-oriented, with a knack for finding creative solutions to challenging problems.

EXPERIENCE

September 2021- Current

Fullstack Developer

AfriEd Nig, Abuja, Federal Capital Territory

- Designed, developed, and modified 12+ software systems and custom components
- Analysed systems flow, data usage, and work processes; investigated problem areas
- Integrated existing software into 13 upgraded, modified systems for higher performance
- Developed and executed 50+ test procedures for software components
- Analysed 15+ user requirements to derive technical software design and performance requirements
- Managed multiple relational database models
- Planned, tracked, and managed deliverables on short-term and long-term deployments

July 2020- August 2021

Backend Developer

Baun Robotics Ltd, Abuja, Federal Capital Territory

- Design, develop, and maintain scalable and efficient backend systems using Python and related technologies.
- Work closely with cross-functional teams, including frontend developers, product managers, and designers, to ensure seamless integration of backend systems with frontend applications.
- Continuously optimize the performance and scalability of backend systems to ensure high availability and fast response times.
- Implement security measures to protect backend systems from potential threats and vulnerabilities.
- Write clean, maintainable, and well-documented code that adheres to industry best practices and coding standards.
- Troubleshoot and debug issues in backend systems, identify root causes, and implement effective solutions.

March 2019-May 2020

IT Technician

Deril multipurpose Ind. Ltd, Abuja, FCT

- Performed system backups and restores as required.
- Configured remote access solutions such as VPNs and Remote Desktop Protocol.
- Assisted users with connecting fax machines, printers and other output devices to the company network and internet.
- Supported other departments with their IT needs by providing advice or assistance when necessary.
- Providing technical support to end users regarding installation of hardware and software components.
- Conducted research on emerging technologies related to IT projects.
- Implemented security measures to protect data integrity.

March 2016- September 2016

IT Intern

Nigerian Television Authority, Abuja, FCT

- Analyzed system logs for any errors or anomalies that needed attention
- Ensured adherence to industry standards when installing or configuring hardware or software solution.
- Demonstrated effective time management skills completing tasks within deadlines.
- Maintained and updated computer systems, networks and database according to established procedures.
- Performed regular backups of critical data to ensure business continuity
- Provided technical support to end users on various software applications.
- Collaborated with other departments to ensure all IT needs were met in an efficient manner.
- Utilized excellent communication abilities to interact with colleagues in a professional manner.
- Assisted with creating training materials for other staff members on how to use IT system effectively.
